- Choose the type of card you would like to make. Print out on regular copy paper. No card stock please.
- Color the card and write a kind message inside the card. Be sure to color all sides and pictures fully. Please use crayons or color pencils. No markers, as they bleed through the paper and make a mess.
- Do not embellish the cards with stickers, sequins, foam pieces, etc.
- Write your first name, how old you are, and the state you live in.
- Include an encouraging note (examples listed below). Please avoid messages such as "Get Well Soon" "You can beat this", "Feel better".
